

# CARIBBEAN EPIDEMIOLOGY CENTRE (CAREC)

Port of Spain, Republic of Trinidad & Tobago

administered by the Pan American Health Organization  
Regional Office of the World Health Organization

CAREC, a Public Health Information, Service and Consulting organization serving 21 member countries in the Caribbean, invites applications from suitably qualified, experienced and dynamic persons to fill the post described below. An excellent opportunity to contribute to the improvement of public health in the Caribbean region exists for the selected candidates.

## BIostatistician (Closing date: February 20, 2006)

The position provides technical expertise in the areas of biostatistics and statistical computing services in support of the work and activities of the Epidemiology Division, and generally of the Centre and its stakeholders. Overseas travel required.

### REQUIRED QUALIFICATIONS

A Master's degree in Statistics, Bio-statistics, Demography and/or extensive experience in applied statistics and statistical computing preferably in a health or biological institution. Demonstrated research experience and ability are essential.

Or

A Bachelor's degree in Statistics, Bio-statistics, Demography or a related field, and post graduate qualifications in Public Health or a related field. A MPH degree would be an asset.

### REQUIRED EXPERIENCE

Three to five years of experience in health information and vital statistics that include computer based statistical data processing, data management and analysis, preparation of reports and training of individuals in statistics.

### COMPENSATION

Starting Salary: TT\$12,008 per month plus benefits. Benefits package includes group life insurance, a group health plan and a provident fund investment scheme. Home leave, relocation travel costs and settlement allowances for persons recruited from abroad. Applications or enquiries should be addressed to:
